

JAYPAL SAPARA *is a* WEB DEVELOPER *for* FANTASTIC *and* OPTIMIZE WEBSITE

Hey, I am a web developer and developing a beautiful, responsive, and optimized website is my passion. I can solve the coding problems and design issues, also able to deploy your website.

Work Experience

Freelancer

Oct 2024 - Present | Web Developer

Currently, I am working as a freelancer for web development and learning some new stuff and technology for future implementation

Note-Taking App: You can write and saved your notes like google keep.

Arvaan Technolab

Apr 2022 - Oct 2024 | Laravel Developer

I started my journey as a PHP Laravel developer at Arvaan Technolab in April 2022. Over the years I worked on the following major projects.

1234Text: Share your secret message using cipher wheel encryption

Simpso Govern: Manage users and review your items with permissions

Skills

LARAVEL and PHP use for back-end, REACT and JQUERY use for front-end, MySQL, SQLite use for database, JAVASCRIPT, CSS, and HTML is core skill, TAILWIND & BOOTSTRAP known for write less css, GIT and GITHUB use for version control, and AWS, LINODE, DIGITAL OCEAN, etc. use for deploy server.

- I can manage projects from creation to deployment, including domain point and SSL integration.
- I'm familiar with API integration and also able to make custom.
- Feel satisfied with clean and optimized code with better performance.

What clients say

"Jaypal worked on our project in a timely manner, delivered perfectly working application."

★★★★★

Elena Battiston
