hi, i'm Jaypal Sapara.

Web Developer · jaypalsapara.in

Skills

Back-End: **Laravel · PHP · APIs**
Front-End: **React · Laravel Blade · JavaScript · jQuery**
Style: **Tailwind CSS · Bootstrap · CSS · HTML**
Server-Side: **Linux · Apache · AWS(EC2 and S3) · SSL · Deployment**
Version Control: **Git · GitHub**
Database: **MySQL · SQLite**
Other: **Photoshop**

Work Experience

Full-Stack Developer
Freelancing | Remote (Oct 2024 - Present)
Currently, I am working as a freelancer for web development and learning some new stuff and technology for future implementation

- **Convert2Webp**
  Convert your PNG and JPG files to WEBP format to make images smaller within the original quality. These types of images optimize the performance of web applications.
- **Note-Taking App**
  You can write and save your notes like Google Keep and also create boards to categorize your notes.

Laravel Developer
Arvaan Technolab | Ahmedabad (Apr 2022 - Oct 2024)
I started my journey as a PHP Laravel developer at Arvaan Technolab in April 2022. Over the years I worked on the following major projects.

- **1234Text**
  Encrypt your plain text and decrypt your encrypted text to plain text using the custom encryption key. Behind the scenes, I wrote a cipher wheel algorithm for encryption.
- **Simpsi Govern**
  Manage users and review your items with permissions. In this project, you can manage users' roles, permissions, organization, division, department, projects, and items.

What clients say

"Jaypal worked on our project in a timely manner, delivered perfectly working application."

★★★★★ 5/5

Elena Battiston
(From Upwork)

Education

Saurashtra University
